

GOOGLE SHEETS KPI & REPORTING SAMPLE

Operations / CRM Portfolio • Demonstration Data

Sample KPI Tracker

Metric	Week 1	Week 2	Week 3	Week 4
New Leads	42	51	47	63
Follow-ups Completed	38	45	44	59
Qualified Leads	12	15	14	19
Open Tasks	18	14	11	9
QA Pass Rate	92%	94%	95%	96%

Reporting Approach

Use consistent definitions, protect data quality, and compare trends rather than relying on a single number.

Example calculations: follow-up completion rate = completed follow-ups ÷ planned follow-ups; QA pass rate = passing evaluations ÷ total evaluations.

Google Sheets Skills Demonstrated

Structured trackers • formulas and calculations • KPI monitoring • visual reporting concepts • data validation and quality checks

Portfolio Note

The figures above are fictional demonstration data created solely to show reporting structure and spreadsheet thinking.
