Research & Verification Process

1. Define ideal customer criteria.
2. Identify relevant companies.
3. Verify company information and contact role.
4. Remove duplicates and weak matches.
5. Standardize fields for CRM import.
6. Record source/status and hand off clean data.

Quality Checks

Correct company name • Relevant industry • Correct decision-maker role • Validated business information • Consistent formatting • Duplicate check

Important Note

All companies, domains, and records in this sample are fictional.
